ImageMixer 3 DVD Authoring - How to create a DVD disc that can be played back seamlessly -

Outline

1. Start up ImageMixer 3 DVD Authoring

Start up from the short-cut icon on the Desktop or the Start button.

2. Select the scenes you want to burn to a DVD disc

Select and add the scenes to the folder title. Operations are different depending on whether the scenes are saved in the hard disk of the computer or another DVD disc.

3. Edit the title menu

Enter the button name and select the thumbnail image, etc.

4. Write to a DVD disc

Set the [Seamless playback] option and write to a DVD disc.

Detailed Operations

1. Start up ImageMixer 3 DVD Authoring

- 1-1. Double-click the [ImageMixer3 DVD Authoring] short-cut icon on the Desktop, or select [Start] -> [Programs] or [All Programs]
 -> [PIXELA] -> [ImageMixer for HDD Camcorder] -> [ImageMixer3 DVD Authoring].
- Click [Create New DVD] in the [DVD-Video Authoring] window.

1-3. The [Project Settings] window appears. Click [OK].

1-4. ImageMixer 3 DVD Authoring starts up.

-> If the scenes you want to burn to a DVD disc are saved in the hard disk of the computer, proceed to 2a. -> If the scenes you want to burn to a DVD disc are only saved in another DVD disc (not saved in the computer), proceed to 2b.

2a. Select the scenes you want to burn to a DVD disc ---- from the hard disk of the computer

2a-1. If the [Importing Device] screen appears, click [Cancel] to close it.
